🏗️ Indecimal Site Assistant

"What factors affect construction project delays?"

I apologize, but I couldn't find that specific detail in the available documents. I will check with the team and get back to you.

How many checks are done in the construction life cycle?

Hello! I'd be happy to help you with information about Indecimal's quality system.

The quality assurance system covers 445+ critical checkpoints across the construction lifecycle. This is described as 445+ checks used for strict quality control at every construction stage.

Can you brief me about your company?

I would be happy to brief you about Indecimal.

Indecimal provides end-to-end home construction support with transparent pricing, quality assurance, and structured project tracking from inquiry to handover.

We are committed to providing several assurances to our customers, including:

- 100% transparent pricing & process
- A real-time project tracking dashboard and visibility
- Fixed timelines with penalties for delays
- Branded materials and on-site checks
- Long-term maintenance and care plans
- Structural warranty positioning

Why should we choose Indecimal over other companies?

Indecimal strives to be chosen over typical market alternatives by offering end-to-end home construction support built on clarity, trust, and specific operational principles.

Key reasons to choose Indecimal include:

Commitment and Trust: Indecimal positions its offering as building "confidence" through commitment, not just contracts, emphasizing clarity and trust across the construction and ownership journey.

Key Operating Principles:

- **Quality Assurance:** We maintain strict quality control at every construction stage, supported by 445+ checks.
- **Pricing:** We strive for Best and Competitive Pricing, ensuring fair pricing with no hidden charges.
- **Transparency and Tracking:** We offer transparent agreements and live tracking through real-time online project monitoring.
- **Financial Control:** Payments to contractors are stage-based and released only after verified completion of the work.
- **Smooth Experience:** We provide step-by-step support throughout the project, ensuring a smooth construction experience.
